

Moss Elementary School
Campus Site Base Committee Meeting
September 2005
3:45 P.M. – Moss Elementary Library

The Meeting was called to order at 3:48 by George Martin, Principal. Mr. Martin introduced the new and returning members of the committee.

Mr. Martin introduced a discussion about topics for Staff Development Days in the 2006 School year. Most of the discussion was focused on allocating ½ day of Staff Development training to fulfill mandated trainings on PDAS, Blood-Borne Pathogens, Pest Control and other required updates. The committee felt that a ½ day of time at the beginning of the year to complete these tasks would be preferable to trying to complete each training separately during Faculty Meetings.

Mr. Martin asked members of the Committee to begin considering parents to attend the Parental Involvement Conference. The entire committee agreed that it would be preferable to find parents willing to attend this conference and present the information to the other parents at Moss Elementary as opposed to having teachers attend and present the information.

The meeting was called to a close at 5:00 pm.
